**University of North Carolina at Charlotte**

Computer Science

<https://justuspurnell.github.io/>

May 2026

GPA: 3.6

---

## TECHNICAL SKILLS:

JavaScript, HTML5, CSS3, MySQL, GitHub, DNS Configuration, API Integration, Responsive Web Design

---

## WORK EXPERIENCE:

**Tattoo Supreme**

2020- 2022

Volunteer IT Support, Raleigh, NC

- Installed a small-office LAN, configured printers, and delivered on-call hardware/software fixes that cut downtime ~30%; praised by owner for “keeping the shop running”.

**Owner | We Detail NC**

2023-Current

<https://justuspurnell.github.io/DetailingWebsite/home.html>

- Built and deployed a booking site (HTML/CSS + FormSubmit) that automated intake and cut back-and-forth texting time by 70%
  - Drove ~\$1.2k average monthly revenue while maintaining 60% gross margin through tiered service packages (Deluxe, Standard, Maintenance Subscriptions)
  - Led all customer operations - onsite detailing, paint correction upsells, and follow-up SMS driving 15 5-star Google reviews and a 5/5 rating.
- 

## TECHNICAL PROJECTS:

### Mobile Detailing Booking Website - HTML, CSS, FormSubmit API

- Built a custom responsive website with dedicated service landing pages for appointment booking
- Integrated FormSubmit API to collect and route form submissions to email without a backend server
- Implemented clean UX/UI form design with HTML5 input types and dropdowns for optimal usability
- Configured custom domain and DNS settings via Namecheap and Github Pages for professional live deployment
